

TEMPLO

Westbridge **TEMPLO** Column Designer Radiators

Timeless design. Modern performance.

The Westbridge **TEMPLO** Column radiator combines classic column styling with contemporary engineering, making it an ideal solution for modernisation projects and retrofit installations. Designed to complement both traditional interiors and modern living spaces, the **TEMPLO** Column delivers reliable heat output with elegant visual appeal.

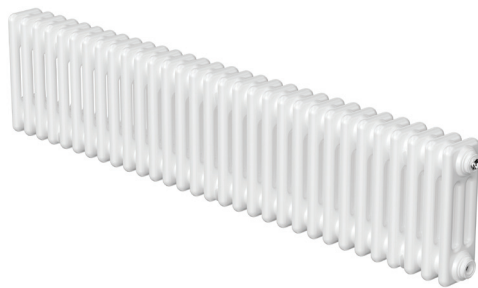

Engineered for ease of installation, each radiator is supplied with integral ½" bushings located at bottom opposite ends, along with a pre-fitted air vent and blanking plug in the upper bushing. Clearly marked inlet and outlet connections ensure straightforward, error-free installation.

Suitable for use with both traditional heating systems and renewable technologies, including heat pumps, the Westbridge **TEMPLO** Column offers flexibility without compromising on performance. All models are fully EN442 tested, providing assured quality, efficiency, and compliance with European standards.

KEY FEATURES

- ▶ Designer column radiator ideal for modernisation and retrofit applications
 - ▶ Integral ½" bushings at bottom opposite ends
 - ▶ Pre-fitted air vent and blanking plug in upper bushing
 - ▶ Clearly marked inlet and outlet connections
 - ▶ Supplied with 4 easy-install white painted wall brackets and fixing screws
 - ▶ Compatible with traditional and renewable heating systems
 - ▶ EN442 tested for performance and quality assurance
 - ▶ Baffle pre-installed at Inlet connection to optimise heat output
- NB. Please observe the dedicated direction of flow. The baffle must always be at the flow inlet connection*

*The Westbridge **TEMPLO** Column is the perfect balance of classic aesthetics, installation simplicity, and modern heating performance.*
